## **CAPABILITIES STATEMENT**

### **EXECUTIVE SUMMARY**

Nexus Technology Solutions is a service-disabled veteran owned, disadvantaged, minority small business with over 10 years experience specializing in enterprise-level, tailored IT services & products in support of operational and R&D activities in the public and private sectors.

NEXUS' workforce is experienced in supporting a wide range of technically-demanding areas within DOD as well as private industry. We also have experience supporting clients in the fields of Academia and Health where we have developed tailored software and networking solutions to solve distinctive client requirements.

The keys to NEXUS uniqueness and success are simple:

1. Become intimately aware of the business mindset and professional nature of each client.
2. Gain a thorough understanding of each client's needs and requirements.
3. Provide our clients with the most talented, qualified and trained professionals available.
4. Provide services tailored to each client.

NEXUS management team will be involved in every project offering the commitment and resources of the entire company; all with the goal of ensuring the success of the project and that our clients are satisfied and confident with the level of quality services we provide.

The advantages of this management approach are reduced risk, increased responsiveness and effective customer interface. Our experience provides us with an inherent ability to work in and/or manage fast paced, changing environments with minimal disruption of service while preserving team stability.

This is what makes NEXUS a company flexible enough to adapt and provide *excellent, timely, cost effective service*. Our reputation and past experience speak for themselves and provide a solid indication of our capabilities. In essence, we are already geared up and possess the requisites for both high and low profile work.
